Development Experience

Developer Internship

Metal Toad Media • September 2015 - Present

Contributed development work for Drupal 7, Drupal 8, and Swift projects; collaborated with intern team to create Drupal update script for internal use with Node and AWS; created detailed admin documentation for clients' use and training; practiced Agile methodologies for project-planning and implementation; strengthened company QA process by comparing and analyzing project workflows.

Front-End Developer

Hack Oregon • September 2015 - October 2015

Hack Oregon is a community-powered non-profit group, building civic data projects on different themes to promote engagement, awareness, and improve quality of life. I created interactive charts and graphs using AngularJS, pulling data from custom APIs created by the back-end developers on the Crop Compass team.

Social Media Strategist & Website Coordinator

Portland Code School • April 2015 - September 2015

Posted content to Portland Code School's Facebook & Twitter accounts; focused on creating a more involved presence in Portland's tech community, and participating in conversations about diversity; designed and created a Squarespace site for Portland Code School; collaborated with key stakeholders to identify requirements and verify site design.

Education

Portland Code School

Full-Stack JavaScript Immersion • May 2015 - July 2015

In this intensive, 3-month program, I learned to build full-stack, JavaScript-based web apps. I gained experience with pair and mob programming, as well as independent and group projects, to hone my development skills.

University of Central Florida

Bachelor of Science: Elementary Education • September 2011 - May 2013

Skills

Drupal 7	HTML5	Capistrano	Restful APIs	Collaboration
Drupal 8	CSS / Sass	Express	Git / Github	Communication
MVC Frameworks	MariaDB	Node	Gulp / Grunt	Enthusiasm
JavaScript	Drush	JSON	Agile	Optimism

Additional Work Experience

Lead Teacher

Peninsula Children's Learning Center • August 2013 - May 2015
Created and implemented curriculum for student cohort age 3-5; communicated with parents, ranging from daily summaries to planning short- and long-term goals for their children's progress; focused on building social-emotional skills and academic development through play-based learning.

Project Coordinator - Oregon's Quality Rating and Improvement System (QRIS)

Peninsula Children's Learning Center • February 2015 – May 2015
Coordinated with administration team to implement practices in alignment with Oregon state standards; set goals for changing or strengthening current practices according to a rigorous timeline; worked to document all standards once they met with state's requirements.

Walt Disney Travel Company

Disney Reservation Center • August 2005 - June 2013
Collaborated with Guests in both sales and support capacities; communicated & engaged with Guests through phone conversations, LiveChat messaging, and Kana email services; support role included creative problem-solving and independent handling of challenges and escalations.
